COMPLETING ARCHITECTURE

FROST
DENMARK

Mirror 4137, Mirror 4135, Mirror 4143 and Mirror 1942.

Towel Bar 11, Pedal Bin 250 and Soap Dispenser 3.

Soap & Disinfectant Dispenser on Floor Stand with Drip Bowl 1.

Towel Bar 3 and Bench 6304.

BATHROOM ACCESSORIES

Bathroom Accessories consists of bathroom products selected from various FROST series. The products are designed by Bønnelycke mdd, who, with a refined sense of simplicity, technical details and stylish fit, has managed to combine aesthetics and function in one and created a range of quality products that will adorn any home.

NOVA2 SERIES

Products from the NOVA2 series are recognised by consistent details such as the shadow edge between the mounting surface and the product compliments the discreet and complete the NOVA2 collection of products. All elements are interpretations of the meeting between the stringent form, and the cylindrical form - this is quite apparent on the hooks for the system.

QUADRA SERIES

The proportional dimensions 8:5:3 defines the products from the angular QUADRA series as architectural building elements. When combined, the clean-cut and stylistically consistent details forms a characteristic and well-defined system.

Products in the Bathroom Accessories brochure are made from solid stainless steel grade AISI 304, most of them available in the nine FROST finishes. The variety of finishes makes it easy to blend the products into any existing interior.

Please see our complete series and collections on
www.frostdenmark.com

THE NINE FROST FINISHES

Products in the Bathroom Accessories brochure are made from solid stainless steel grade AISI 304, most of them available in the nine FROST finishes. The variety of finishes makes it easy to blend the products into any existing interior.

Hook 8, Mirror 4145 and Pedal Bin 250.

CARE COLLECTION

CARE Collection is designed by Bønnelycke mdd and includes care products that blends function and aesthetics into one. The collection is designed to fit toilets and bathrooms as well as entrances, staircases and waiting areas, in both private and public spaces. The collection includes foldable seat, foldable armrest with additional toilet roll holder and cover caps, grab rails and bath grip. Most of the products are available in the nine FROST finishes, which makes it easy to blend them into any existing or new interior.

Please find further information on www.frostdenmark.com

Foldable Seat and straight Grab Rail.
Shower Wiper Long & Wide.

METHOD OF TESTING

To ensure that the CARE Collection is capable of withstanding heavy loads and conditions of every day use, the products have been tested in accordance to the requirements of the European standard for technical aids for disabled, BS/EN 12182:2012. We recommend all care products are installed on a solid wall. Reinforcement should always be used if the wall is not stable.

All tests are carried out on products mounted on a solid, concrete wall, thus we cannot guarantee the same performance and durability if this is not observed. For safety reasons, we recommend to check all bolt connections to ensure that no parts are loose and that all attachments to the wall are intact.

SEAT AND ARM SUPPORT

Implementing a safety factor of 1.5 the sample was subjected to a static proof load test with 150 kg, followed by a static overload test with 225 kg. The sample withstood the static proof load and the static overload test without fracture or collapse.

GRAB RAILS

Implementing a safety factor of 1.5 the sample was subjected to a static load; vertical load 3.43 kN (350 kg) followed by a horizontal load of 5.89 kN (600 kg). The sample withstood both the vertical and horizontal load without fracture or collapse.

Bench 6303.
